

County Engineers' Association Of Maryland Scholarship Program

The Officers and Board of Directors of CEAM in conjunction with the Scholarship Committee support an ongoing program to award scholarships and grants to further the education and careers of Members, Associate Members, Member County's staff and Associate Members Company's staff. *This is an open and continuous program in addition to the annual scholarship programs CEAM supports at the University of Maryland and Morgan State University.* Scholarships or grants ranging from \$1,500 to \$3,000 will be awarded in the following areas:

1. Civil Engineering undergraduate scholarships for members and associate members with junior or senior level standing
2. Civil Engineering graduate scholarships for members and associate members
3. Member County and Associate Member Companies educational grants for Leadership and Professional Development education to enrich staff and address succession planning
4. Member County training grants to develop, fund and provide training for all CEAM members, County staff and Associate Company staff.

The award of scholarships will occur after a review by the Scholarship Committee of candidate qualifications, public agency or company sponsorship and required application information submitted by the applicant. If you have any questions or comments on this program, please contact Jim Wilson, Scholarship Committee Co-Chair at jim.wilson@ebaengineering.com

Please complete the application applicable to your situation and include the required information for evaluation. Scholarships and Grants will be evaluated and awarded on an ongoing basis. Award will be based on merit and funding availability. Payment of the scholarship award and educational grants will occur upon completion of the course and submission of an official transcript showing a grade of C or better in any college course or a certificate of completion/PDH award for other approved training programs. The member County training grants will be evaluated based on the merit of the training proposed and number of trainees that will be accommodated. Member County training grants may be funded in advance.

Scholarship Program Application

Civil Engineering Scholarships

Undergraduate and Graduate Programs
