

Bio
CEAM County Engineer of the Year
Greg Africa

Experience

Greg Africa has been a Deputy Director of Public Works in Anne Arundel County for over eleven years. He oversees the Bureau of Highways. Greg's current responsibilities include operation and maintenance of county road network infrastructure including pavement, stormdrains, stormwater management structures, right-of-way management and traffic engineering.

Education

Greg attended the BS Civil Engineering and MBA programs at the University of the Philippines and obtained his MS Environmental Management degree from the University of Maryland. He has over 30 years of professional experience in design, construction and operations in both the private industry and public works.

Memberships

Greg is a member of the American Public Works Association, National Association of County Engineers (NACE), Anne Arundel County and Maryland Transportation Technology Transfer Center advisory board. He serves as the DPW ex-officio member of the County's Commission on Disability Issues where he is the liaison for DPW compliance with ADA and assists the commission relating to public works matters. Greg served in the CEAM board and rose through the ranks from 2nd VP to President in 2009. He remains active as the Maryland representative to NAC E.

Highlights

Currently, Greg and his wife are empty nesters. His wife, Laura, is on her second career as a librarian in the County public library. His elder daughter, Nina, has double master's degrees and is an architect, interior designer and LEED professional. Greg's younger daughter, Linnea (lee-nay-yah), is a sophomore in a BFA in Animation program.
